51→70%+	75%	91%	₹300 Cr+	5,500+
ACTIVATION	FEWER SUPPORT QUERIES	SELF-SERVICE ADOPTION	AUM PRODUCT	USERS

Product designer with 11+ years of experience across fintech, consumer products, and B2B SaaS. As the sole product designer across three squads at marketfeed, owned acquisition, onboarding, and portfolio management for a ₹300 Cr+ AUM platform — driving activation, self-service adoption, and reduced operational load through complex, high-consideration product journeys.

PROFESSIONAL EXPERIENCE

Senior Product Designer · marketfeed

Jan 2023 – Mar 2026 · Bangalore

Fintech · ₹300 Cr+ AUM · 5,500+ Users · iOS & Android

- Led end-to-end product design as the sole designer across 3 product squads spanning acquisition, onboarding, and portfolio management.
- Redesigned the Pledge & Trade onboarding experience by improving product understanding, trust, and decision sequencing, increasing activation from **51% to 70%+** and reducing onboarding time by **11%**.
- Built a self-service fund allocation experience that replaced manual operational workflows, reducing support queries by **75%** and achieving **91% user adoption within 3 months**.
- Used Mixpanel and Microsoft Clarity to identify funnel drop-offs, analyze user behavior, validate hypotheses, and guide product improvements.
- Designed complex, high-consideration financial journeys with 4–14 day decision cycles, improving clarity and helping users make informed decisions.
- Built the Keystone Design System from scratch, including design tokens, reusable components, interaction patterns, and Flutter specifications, **adopted across the company within 6 months**.
- Introduced AI-assisted workflows that reduced feature scoping time from approximately **2 hours to 20 minutes**.
- Established design critiques and clearer developer handoff standards, improving collaboration and reducing unnecessary design iterations.
- Worked closely with product, growth, engineering, and leadership teams to turn business goals and ambiguous requirements into clear product solutions.

Core Skills Product Design · Growth Design · Conversion Optimization · Funnel Analysis · User Research · Interaction Design · Behavioral Analytics · Design Systems

Product Designer · marketfeed

Apr 2021 – Jan 2023 · Bangalore

Owned product design across key customer journeys while helping establish product design practices during the company's transition toward a product-led fintech business.

- Designed and shipped product experiences across mobile and web, working closely with product managers and engineers from problem definition through implementation.
- Conducted user research, usability testing, and product analysis to identify friction across onboarding and core product journeys.
- Improved complex financial workflows by simplifying information architecture, interaction patterns, and product communication.
- Helped establish reusable UX patterns and design standards as the product expanded.
- Collaborated with cross-functional teams to balance customer needs, technical constraints, and business goals.

Product Designer · Zolostays (Zolo)

Dec 2019 – Apr 2021 · Bangalore

Consumer Product · PropTech · 100K+ Users · 10+ Cities

- Owned end-to-end product design for key customer journeys across iOS, Android, and web.
- Redesigned key parts of the booking journey after identifying that users discovered property availability too late in the process.
- Improved the search experience by surfacing availability earlier and helping users make better decisions before entering deeper stages of the booking funnel.
- Conducted UX audits and identified **15+ usability issues** across navigation, visual hierarchy, interaction patterns, and empty states; recommendations were adopted and shipped.
- Worked closely with product and engineering teams to balance customer experience, operational requirements, supply constraints, and technical feasibility.

---

User Experience Designer · HashedIn by Deloitte

Oct 2015 – Dec 2019 · Bangalore

Enterprise Product Engineering · B2B SaaS · 100+ Global Clients

- Worked as an embedded product designer across enterprise SaaS, healthcare, CRM, and e-commerce products.
- Delivered end-to-end UX solutions across **12+ digital products** and **5+ industries**.
- Led discovery workshops and worked with stakeholders to turn unclear business requirements into structured and testable product solutions.
- Designed complex enterprise workflows, dashboards, web applications, and mobile experiences.
- Worked closely with clients, product managers, and engineering teams throughout discovery, design, validation, and delivery.
- Created reusable components, style guides, and design standards that improved product consistency and delivery efficiency.

---

UI Designer · Dimoda Labs

Apr 2015 – Oct 2015 · Kozhikode

Designed responsive websites, digital interfaces, and visual identities for client projects. Translated business requirements into clear, usable digital interfaces and collaborated with clients and developers from concept through delivery.

User Interface Designer · Greenwich Nexus

Feb 2014 – Mar 2015 · Kochi

Designed mobile applications and responsive websites across client projects. Built a strong foundation in visual design, typography, responsive design, interface design, and digital product delivery.

SELECTED PRODUCT IMPACT

Activation & Onboarding

51% → 70%+ Activation · 11% Faster Onboarding

Improved product understanding, trust, decision sequencing, and completion across a complex fintech onboarding journey.

Self-Service Fund Allocation

75% Fewer Queries · 91% Adoption in 3 Months

Replaced a manual operational workflow with a self-service product experience.

Keystone Design System

Org-Wide Adoption in 6 Months

Solo-built marketfeed's first shared design system — tokens, components, patterns, documentation, and Flutter specifications.
